“People who say they don’t see the acceleration of
innovation is a wilful blindness.
We are innovating at a wonderful speed for the
basic things we think everyone should get.”

- Bill Gates

Welcome to our NINTH annual TEDxOcala!

Our theme this year is **Acceleration**. We love this broad theme as it incorporates so much. With the release of Artificial Intelligence apps and tools (AI) or as some say Accelerated Intelligence, we believe our theme this year encompasses the speed of change we are seeing across many industries and the world in general.

It's our hope that our audience is here open to learning, observing, and engaging in new ways. All of us who are here today were meant to be here together. Take advantage of your time here. You will meet interesting people in the audience and hear actionable ideas. What is important is you take the time and challenge yourself to meet new people and discuss the ideas you are hear-ing.

Our willingness to take time to listen to ideas that may influence our perspective and help us spread those ideas is key. TED is very much about engaging communities and thought leaders to make our world a better place. The talks you will hear will spark conversation, creativity, and community.

On behalf of our all-volunteer team, we want to thank our presenters for their hard work and effort to share their ideas, our team for the fortitude to put on this community event, our sponsors and partners for their support, and you, our audience for being here to engage in this experience. You are the ones who are able to spread these ideas, and we are pleased we will be able to share TEDxOcala with the world through our videos.

To get the most out of today, we encourage you to be present, focused and engaged. Meet new people, start new conversations, and open your mind to new possibilities. We invite you to con-nect with our speakers, their ideas, and each other.

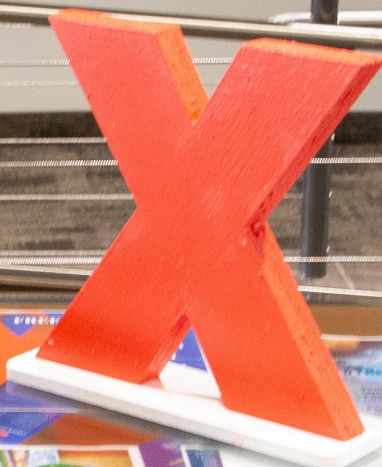

Remember, take time to say hello to everyone you meet today. It is our ability to connect and dis-cover new friendships and relationships that enhance our journey together. Enjoy this special day. We believe there is brilliance in the room and the synergy that we can create together will reveal that we are accelerating our ability to get much done.

We welcome you to be part of a global movement dedicated to spreading good ideas, and ideas that spread win.

Kindest Regards,

AHMED ABUBAKAR

Aspiring Leader | Business Strategist | Salesman

Ahmed is a public speaking enthusiast. Originally from Toronto and currently residing in New York with his wife Nawal, Ahmed is a former trained actor turned salesman and amateur public speaker. Some of his favorite public speakers include Malcolm X, Simon Sinek, Brene Brown, Denzel Washington and a few more. Ahmed has a passion for topics such as spirituality, personal development, logic and rhetoric, and business. One of his big goals to accomplish in his early thirties is presenting a TEDTalk which combines the various topics he's passionate about. And it is something he will get to do soon.

One day he hopes public speaking will play a big role in his line of work where he will get to share messages of empowerment and self betterment to others. When he's taking it easy from his day job or pursuing his interests, you can find him spending time with his loved ones, checking out new restaurants Nawal talks him into trying, and exploring the many parts NYC has to offer.

DR. ADEL KORKOR

Physician | Health Activist | Entrepreneur

Years ago, his journey in medicine began, for he has wanted to become a physician since the age of ten. It was his desire to heal everybody. His father, having suffered from diabetes from a rather young age, often joked with him by saying that he will one day be a 'human body repairman'.

In his thirty-seven years as a physician – first in academic medicine and then in clinical medicine – he has had the profound honor and privilege of touching countless lives. Now, however, he is embarking upon his second journey – addressing issues surrounding mental health. During the years of carefully tending to the nuances of the human body, he became intensely aware of the body and brain connection. He understood and experienced the complexity of the brain and the pivotal role that mental health plays in our physical well being. Additionally, he has observed the painful, pervasive struggle of patients with mental illness from stigma, limited access to care, and inadequate insurance coverage.

Nothing less than his own personal experience with panic disorder and his challenge to improve his own mental well-being could have had a more significant influence on his next journey to help others with their own mental health. At age forty, he suffered his first major panic attack, yet upon reflection, now he truly knew he had plenty of lesser ones since childhood. After several months of drug treatment, he intensified his physical exercise and set his sights on running as part of his treatment. Within a few short months, he ran his first marathon and has run many others since. He now knows that running has saved his life! Thus, with all this in mind, he is now embarking upon his next mission to help make this world a better place for those suffering with mental illness. He hopes to increase awareness, address the staggering shortage of affordable care, emphasize the importance of wellness in mental health, fund research, and focus on underserved groups such as veterans, minorities and those suffering from addiction.

About TEDx, In the spirit of ideas worth spreading, TED has created a program called TEDx. TEDx is a program of local, self-organized events that bring people together to share a TED-like experience. Our event is called TEDxOcala, where x = independently organized TED event. At our TEDxOcala event, TED Talks, video, and live speakers will combine to spark deep discussion and connection in a small group. The TED Conference provides general guidance for the TEDx program, but individual TEDx events, including ours, are self-organized.

About TED

TED is a nonprofit devoted to spreading ideas, usually in the form of short, powerful talks (18 minutes or less). TED began in 1984 as a conference where Technology, Entertainment and Design converged, and today covers almost all topics — from science to business to global issues — in more than 100 languages. Meanwhile, independently run TEDx events help share ideas in communities around the world. TED speakers have included Bill Gates, Jane Goodall, Elizabeth Gilbert, Sir Richard Branson, Benoit Mandelbrot, Philippe Starck, Ngozi Okonjo-Iweala, Isabel Allende and former UK Prime Minister Gordon Brown. Two major TED events are held each year: The TED Conference takes place every spring in Long Beach, California (along with a parallel conference, TEDActive, in Palm Springs), and TEDGlobal is held each summer in Edinburgh, Scotland.

TED's media initiatives include TED.com, where new TEDTalks are posted daily; the new TED Conversations, enabling broad conversations among TED fans; and the Open Translation Project, which provides subtitles and interactive transcripts as well as the ability for any TEDTalk to be translated by volunteers worldwide.

TED has established the annual TED Prize, awarded to a leader with a fresh, bold vision for sparking global change; TEDx, which offers individuals or groups a way to host local, self-organized events around the world; and the TED Fellows program, helping world-changing innovators from around the globe to become part of the TED community and, with its help, amplify the impact of their remarkable projects and activities.

WEST PORT HIGH SCHOOL JUNIOR ★★★★★★

This event will offer a multitude of new perspectives, and the benefit of observing outstanding public speakers. I watch TED talk or TED-ed when I get ready every morning. I have learned so much from them and would love to learn even more from watching them in person. I would love to use this opportunity to absorb the lessons in person and meet others who are also as invested in ted talks the way that I am. I should receive this scholarship seat, because of how badly I want it. This event as I said before offers so many chances for new beneficial experiences. I am reliable, and those who know me know that when I commit to anything I follow it through. I am the most dependable person I know, and if you select me, I will be there. I am incredibly enthusiastic about the potential of attending this ted talk. If chosen nothing could stop me from going but I am not going for the perks, I want to go to learn and observe the ted talks.

WEST PORT HIGH SCHOOL JUNIOR ★★★★★★

Due to my growing fascination in various topics, I believe that my attendance to this event would not only grow my knowledge, but also broaden my interests as a student. Allowing me to further explore current topics and issues will allow me to explore solutions to these problems. Therefore, making me a well-rounded and educated student of modern-day society in the states. Along with that I am currently enrolled in an AP seminar, and I am learning about new topics that would also benefit me for research-based presentations in that class. Thank you.

WEST PORT HIGH SCHOOL SENIOR ★★★★★★

I think this event is a wonderful opportunity for listening to the perspectives and thoughts of professional speakers. Among the list of Ted Talks for this year, there are a lot of personal empowerment topics involved with the speaker's own stories. These kinds of talks are important to hear as the ability to grow and develop your own knowledge, emotional intelligence, and understanding of other perspectives is irreplaceable. I should receive this scholarship seat because I am extremely driven to learn and expand my knowledge and I know that these Ted talks are an invaluable opportunity to do so. For me, the power of broadening my perspectives and hearing the stories and views of others is key to my growth as a person.

WEST PORT HIGH SCHOOL SENIOR ★★★★★★

Since I started high school, I have watched TED talk videos in the classroom. The universal lessons that each of these ted talks taught fueled my obsession with TEDx. It was always a passing thought whenever I would have the opportunity to attend one of these events. After hearing about the event happening in Ocala in passing conversation with a teacher at my school, I was ecstatic that our school was offered a chance to be seated at this event. The speaker would be able to shape minds, and, in turn, we would be able to pass this knowledge onto others. I would be grateful to be seated at this event.

WEST PORT HIGH SCHOOL JUNIOR ★★★★★★

As I grow older the more my mind wanders in search for any inspiration that will give me a passion and new understanding, I did not know about myself. As I envelop on this journey of self-discovery, Ted talks have become my best friend. I would be so grateful to be able to attend the new upcoming event being held in Ocala. The inspiration that Ted talks give me comes from the individuals that show their journey they went through to discover their passion or a challenging event they faced that led them to discover their passion.

ACCELERATION ACADEMY ★★★★★★

This event is an opportunity that I was lucky enough to be invited to. I gave up entirely in school, but now at my new school, I am trying my best this time. I now realize education is one of the most important things to have and any help given to me would be very appreciated. Thank you very much!

VANGUARD HIGH SCHOOL JUNIOR ★★★★★★

I would like to attend this TED showcase because I think this is a great opportunity to branch out. TED videos have always been interesting and being present at this event would be a huge honor. This is a rare event, and I would hate to miss out on it. I feel like I can learn many things by attending.

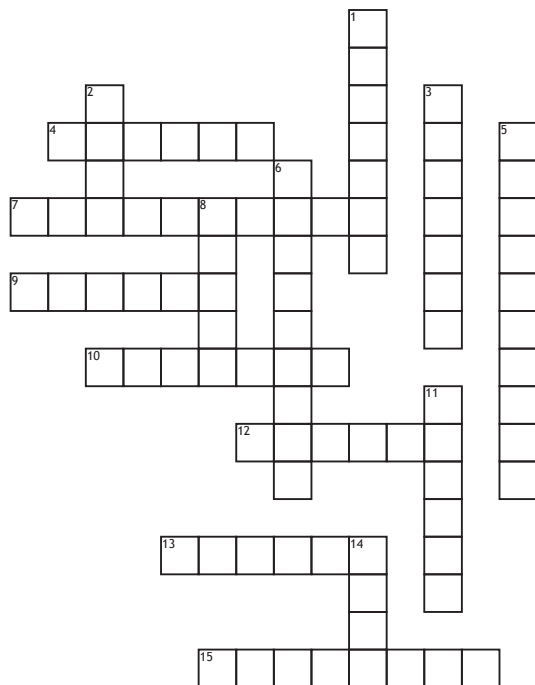

FOREST HIGH SCHOOL SENIOR ★★★★★★

I attended TEDx last year and loved it! I look forward to the ideas that will be presented this year. In previous years, I've left with new insight and a different perspective on things. I believe I can provide the speakers with exceptional feedback that will help them in their future endeavors. Being able to attend this year will give me the knowledge I need about public speakers and hopefully be the next speaker in the future.

MARION TECHNICAL COLLEGE JUNIOR ★★★★★★

I would love to attend this event because as an individual I would like to see and hear people talking about their lives and their ideas on Power. I am an open-minded person so I would love to hear everyone out and eventually use the knowledge I have gathered from this event and apply it to my own life.
